SOME MODELS OF POPTOPS CAN BE USED AS A UNIVERSAL ROOF. PLEASE SEE BACK PAGE OR CALL US.

WE ALSO DO A RANGE OF ELEVATING ROOFS FOR LAND ROVERS. PLEASE CALL US FOR MORE DETAILS.

CANVAS OPTION & MATERIAL COLOUR RANGE.

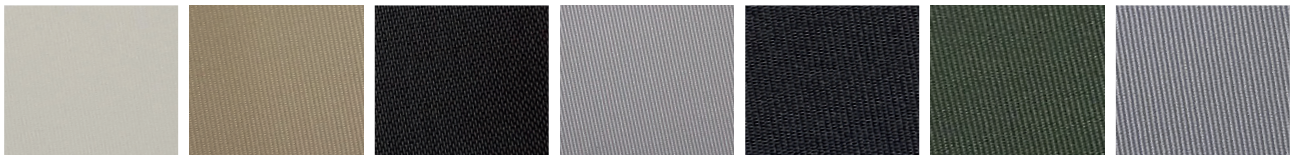

COTTON CANVAS

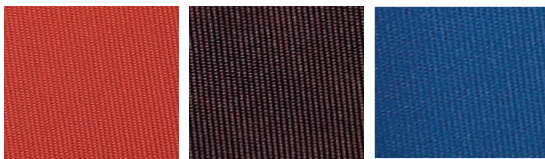

BEIGE. ROYAL BLUE. MID GREY. BOTTLE GREEN. NATURAL. DARK GREY.
STANDARD.

The canvas is used for our standard tent and is a quality, thick 100% cotton canvas made from an all-purpose fabric. The material is highly breathable, and these tents tend to have very little condensation. It is important to note that after use in inclement weather you should dry out the canvas thoroughly before you store. From time to time depending on the amount you use the tent, we recommend that after drying, it is sprayed with Fabsil Gold water proofer.

EXTRA DURABLE POLYESTER

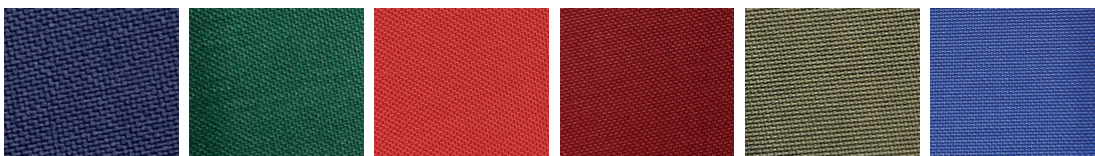

WHITE. SAND. BLACK. SILVER GREY. ADMIRAL NAVY. FOREST GREEN. CHARCOAL.

CARDINAL RED. BLACK CHERRY. CARIBBEAN BLUE.

This canvas is made from an all-purpose, polyester breathable material. It has been engineered to provide excellent strength, durability, additional water resistance, dimensional stability, UV resistance and mildew resistance.

MARINE GRADE NYLON

VIOLET. BOTTLE GREEN. RED. DARK RED. OLIVE. ROYAL BLUE.

GREY. PETROL. NAVY. BLACK. CHOCOLATE. ORANGE.

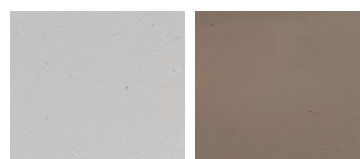

This canvas is made from an all-purpose, Marine Grade Nylon material. It has been engineered to provide excellent strength, durability, water proof, dimensional stability, UV resistance and mildew resistance.

ZIPOUT OPTIONS

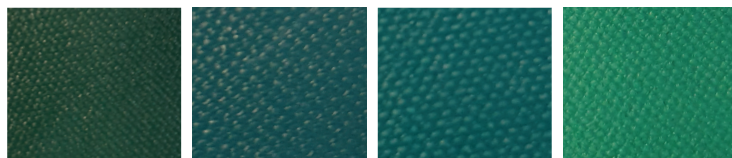

FULL ZIPOUT. HALF ZIPOUT.

PVC WINDOW OPTIONS

STANDARD CLEAR. STANDARD SMOKE.

MARINE GRADE POLYESTER

FOREST GREEN. TURQUOISE. TEAL. AQUA MARINE.

This canvas is made from an all-purpose, Marine Grade Polyester material. It has been engineered to provide excellent strength, durability, water proof, dimensional stability, UV resistance and mildew resistance.

TAN. ROYAL BLUE. ARCTIC WHITE. INDIAN BIRCH.

SAND. CARIBBEAN BLUE. BEIGE.

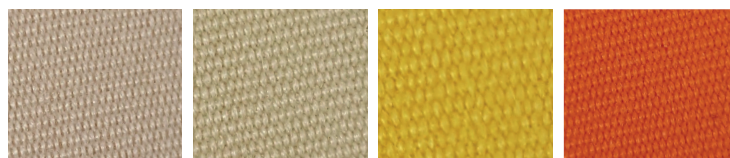

CHOCOLATE BROWN. SUNSET RED. SEAGULL GREY. CHARCOAL.

Some Universal Roofs may need trimming slightly, to suit, depending on the shape of the vehicle. The strengthening frame can be adapted to suit your vehicle. We supply long length of frame work for the customer to fabricate and adapt to their requirements. However there is a standard frame available for each type of roof if required. We also have more roofs available as universals, please get in contact for more information.

You can also download the size sheet by scanning the QR Code above for you to measure your vehicle. Most roofs are available in Front, Rear, Side or Vertical Lifters.

POWER ON THE MOVE

Fitting a solar panel to the roof of your camper van ensures your adventure continues without the need to either run the engine for long periods or find an expensive hook up on a crowded campsite!

The solar panel works in all daylight conditions, requires no maintenance and its control systems can charge both leisure battery and vehicle battery in an intelligent cycle to ensure overcharging doesn't occur.

The PV Logic range of semi flexible solar panels are the very best on the market and the only panel of its kind to have passed the demanding ISO9227 Salt Water Spray Test, guaranteeing the best performance even in the harshest environments.

We provide you with a complete rooftop kit so you don't have to buy any extras. All kits include: PV Logic Flexi Solar Panel (size of your choice), dual battery charge controller, bonding agent (to securely fix the panel to the roof), cable, cable gland (10w, 20w, 60w, 80w & 120w only), remote diode box cable strain relief pack (100w & 150w only), fuse, screw & terminal pack.

PV LOGIC FLEXI

CELL OUTPUT
20 YEARS WARRANTY

SALT WATER SPRAY TESTED
ASTM B117
ISO 9227

**PER DAY BASED ON AVERAGE UK WEATHER CONDITIONS.

PART NO.	POWER	SIZE (MM)	WEIGHT	AVERAGE POWER**	TYPICAL USAGE
STPVFRT010	10w	390 x 250 x 3	0.56kg	50Wh	Ideal for battery maintenance or keeping the battery topped up if the van is not being used.
STPVFRT020	20w	505 x 345 x 3	0.79kg	100Wh	The choice when power demand is limited to interior lighting only.
STPVFRT060	60w	1450 x 315 x 3	3.00kg	300Wh	For heavier demands are expected including lighting, use of water pump, powering a 12v TV/Laptop computer and sound system.
STPVFRT080	80w	885 x 665 x 3	3.75kg	400Wh	Perfect choice if 230ac devices will be powered via an inverter (not supplied) for short periods of time e.g. hair dryer, microwave, oven etc.
STPVFRT100*	100w	980 x 690 x 3	4.2kg	500Wh	Extra power if a 12v Fridge is being used for limited periods during the summer.
STPVFRT120	120w	1225 x 665 x 3	6.1kg	600Wh	Best choice to power all van electricals and if longer term power for a fridge is needed e.g. when extended touring.
STPVFRT150*	150w	1515 x 665 x 3	4.8kg	750Wh	Long adventures or semi-permanent living. Delivering enough power to fully charge standard leisure battery from flat to full in less than one day.
